OBJECTIVE:

Software Architect .NET, Senior Systems Analyst .NET

PROFESSIONAL SUMMARY:

Results-driven .NET Developer with 10 years of extensive experience in designing, developing, and delivering robust, scalable, and efficient software solutions across diverse industries, including logistics, finance, insurance, and outsourcing. Adept at full-stack development using ASP.NET Core, C#, and modern frameworks, with expertise in RESTful API design, database optimization, and cloud-based services integration.

Proven track record of collaborating with cross-functional teams to deliver high-quality solutions aligned with business goals, while adhering to industry best practices such as SOLID principles, TDD, and Agile methodologies. Skilled in system analysis, troubleshooting, and performance optimization to ensure seamless user experiences and reliable operations.

Key Technologies and Skills:

- **Languages:**
  C#, JavaScript, TypeScript, SQL.
- **Frameworks and Libraries:**
  ASP.NET Core, .NET Framework, Web API, WPF, Windows Forms, Blazor, Entity Framework, Dapper, LINQ, SignalR, Node.js, xUnit, NUnit.
- **Cloud Platforms:**
  Microsoft Azure (Functions, Service Bus, Blob Storage, App Services), AWS (Lambda, S3, DynamoDB, CloudFormation).
- **Databases:**
  SQL Server, PostgreSQL, Oracle, MySQL, MongoDB, Redis, ElasticSearch.
- **Architectural Patterns and Methodologies:**
  SOLID Principles, Microservices, RESTful API Design, TDD, DDD, BDD, Clean Architecture, Agile (Scrum, Kanban).
- **DevOps and CI/CD Tools:**
  Docker, Kubernetes, Jenkins, GitHub Actions, Azure DevOps, ArgoCD.
- **Front-end and Full-stack Technologies:**
  Node.js, Angular, React, Bootstrap, DevExpress, Razor Pages, jQuery.
- **Testing and Debugging:**
  Unit Testing, Integration Testing, Debugging Tools (Fiddler, Postman), Load Testing.
- **Version Control and Collaboration:**
  Git (GitHub, GitLab, Bitbucket), Jira, Trello, Slack.

CERTIFICATIONS:

- Microsoft Certified: Azure Fundamentals
- AWS Certified Cloud Practitioner
- Scrum Foundation Professional Certificate - SFPC™ (Certiprof)

WORK EXPERIENCE:

Software Engineer – BairesDev, USA (2022 – Present)

- Designed, developed, and maintained scalable **.NET Core** and **Node.js** applications for enterprise-grade systems.
- Leveraged **ASP.NET Core**, **Entity Framework Core**, and **Dapper** to build robust back-end solutions.
- Integrated cloud services such as **Azure Blob Storage** and **Service Bus** to enhance scalability and reliability.
- Created secure RESTful APIs using **OAuth2** and **JWT**.
- Implemented caching solutions with **Redis** to improve application performance.
- Led a team in Agile methodologies, conducting code reviews, sprint planning, and task management.
- Implemented RESTful APIs and real-time communication using **Express.js** and **Socket.IO**.

Environment: .NET, C#, SQL Server, MongoDB, Azure, Docker, Redis, Angular, TypeScript, Node.js, ArgoCD, Jenkins, xUnit, REST APIs.

Senior .NET Developer – F1 Solutions, Australia (2021 – 2022)

- Migrated legacy systems to modern technologies, including upgrading frameworks like **Bootstrap** and **DevExpress**.
- Designed and developed microservices using **.NET Core** with **Entity Framework** and **Dapper** for optimized data handling.
- Debugged and resolved critical issues across distributed systems using tools like **Postman** and **Fiddler**.
- Collaborated with front-end teams, integrating **React** with API-driven back-end services.
- Upgrade system libraries bootstrap (from version 3 thru version 5), DevExpress, Jquery, jquery UI, and ajax.
- Designed and optimized complex **stored procedures**, **views**, and **functions** to handle large data sets and improve performance.

Environment: .NET Core, PostgreSQL, React, REST APIs, DevOps pipelines with Azure DevOps, Bootstrap.

.NET Developer Analyst – Squadra Technology, Brazil (2020 – 2021)

- Developed cloud-native applications leveraging Microsoft Azure services such as Functions, Blob Storage, and Service Bus.
- Designed microservices architecture using SOLID and Clean Architecture principles.
- Responsible for code reviews and team code quality
- Unit and integration tests of each functionality of our applications.
- Managing azure CI/CD pipelines.
- Collaborated with cross-functional teams to implement scalable solutions for Salesforce and SAP integrations.

Environment: Azure, Salesforce, SAP, SQL Server, Microservices, Docker, Kubernetes, Azure Devops, .NET, REST APIs.

.NET Developer – Reply, Brazil (2018 – 2020)

- Designed and implemented SOA-based solutions using Web API and WCF for enterprise applications.
- Worked on a variety of projects using Windows Forms, WPF, and ASP.NET MVC to create dynamic and interactive user interfaces.
- Optimized database performance in Oracle and SQL Server environments by creating efficient stored procedures and indexes.
- Deployed and managed applications on IIS and Azure App Services.
- Planned and managed the phases of the development life cycle of the software

    Environment: ASP.NET, WPF, WCF, Oracle 11g, SQL Server, Azure App Services.

Other Experiences

- **Junior .NET Developer** – SIAT Informatica LTDA, Brazil (2015 – 2018)

    o Created logistics systems with **WPF** and **ASP.NET MVC**.
    o Maintained databases in **SQL Server** and integrated them with **Windows Services**.

EDUCATION:

- **Postgraduate Diploma:** Software Architecture | IGTI (February 2022 – February 2023)
- **Bachelor's Degree:** Information Systems | Faculdade FUMEC (January 2017 – December 2021)
- **Technical Certificate:** IT Certificate | COTEMIG (January 2014 – December 2016)

IDIOMS:

- Portuguese – Native
- English – Advanced
- Spanish - Beginner
